Charlotte Office - Intern

Your future starts with us.

If you're looking for a typical internship – tedious grunt work with no real opportunities to shine – we aren't the right fit.

BGW's accounting internship program grants exceptional students the opportunity to gain broad experience in an Anything But Typical™ public accounting firm.

Forget stuffy offices, suits and ties, inflexible schedules, and monotonous work. BGW interns are actively involved in engagements from start to finish, hone their accounting skills, experience the art of client interaction, and build a professional network that will benefit them as they prepare to enter the profession. And, they have a lot of fun along the way. Our location in SouthEnd puts interns in the heart of one of Charlotte's most vibrant neighborhoods.

If you're looking for a real opportunity to work alongside industry professionals while doing actual work and becoming part of an Anything But Typical™ team, we welcome your application.
